Information Systems

PROFESSIONAL SUMMARY

Final-year Information Systems student (GPA 3.0/4.0) with a strong technical background in SQL and Python. First Prize winner of the 2025 IT Talent Competition with a passion for tech-driven business optimization. Seeking a Business Analyst Intern role at [Company Name] to contribute data-driven insights and a proactive attitude toward achieving company goals.

EDUCATION

Ho Chi Minh City University of Technology (HUTECH)

09/2022 - 12/2026 (Expected)

Major: Information Systems

GPA: 3.0/4.0

PROJECTS

1. VIEGO – INTEGRATED TRAVEL MANAGEMENT & REAL-TIME TRACKING PLATFORM

11/2025 – 01/2026

Role: Team Leader | Grade: Maximum score for Major Project

- Analyzed business requirements from travel enterprises and end-users.
- Designed end-to-end functional flows: Tour management, blogs, real-time location tracking, and user behavior analysis.
- Developed backend using Python (Flask) and frontend with React.js, Next.js, and Tailwind CSS; managed MySQL database.

Results: Optimized tour management workflows, reducing planning time by 40% for enterprises while providing tourists with interactive real-time journey tracking.

2. NAM QUOC SON HA – VIETNAMESE HISTORY EDUCATIONAL GAME

01/2024- 7/2024

Role: Team Leader (9 members)

- Developed a 2D educational game to enhance historical knowledge acquisition for students.
- Utilized GDScript on the Godot engine platform.
- Managed the team, assigned tasks, and ensured all deadlines were met.

Status: Project reached the demo and testing phase.

PROFESSIONAL SKILLS

- BA Core:** Requirements Elicitation & Analysis, Business Process Modeling (BPMN, UML).
